Natural and reusable - Christmas tree made of plywood

	Real	Plastic	NEFAB
Natural materials	✗		✗
Reusable		✗	✗
Collapsible		✗	✗
No mess			✗
Minimalistic design and easy to decorate			✗

Having trouble deciding which is more environmentally friendly - a real tree or plastic reusable Christmas tree? No need to worry! NEFAB Christmas tree is here!

Produced from natural materials, the tree is safe for the environment and the production of it causes 20% less CO2 emission than making the plastic tree. Collapsed NEFAB tree can easily be stored and used for a long time... forever to be exact!

Going green is not something you can say, you must live it every day. Make the smarter choice and stay environmentally friendly during Christmas!

“ Going green is not something you can say, you must live it every day. ”
