

# LOGPAK

The collapsible Nefab LogPak has all of the advantages of a modern reusable packaging solution. Nefab LogPak ensures economical and safe protection of goods during transport and storage. The system, comprised of a pallet, pallet collar(s), and lid, is flexible and easy to handle.

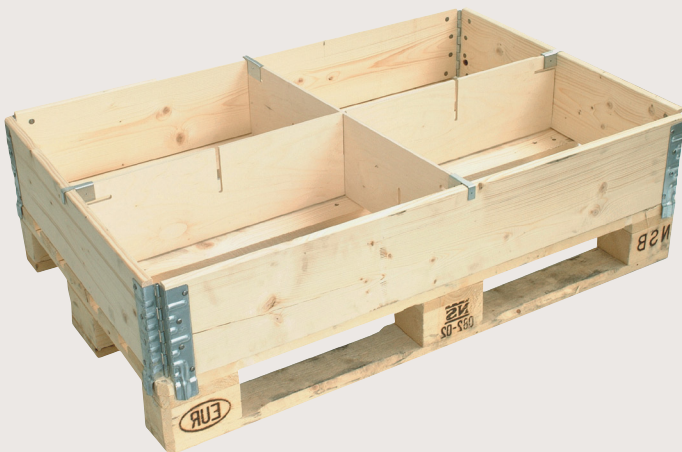

## Features

Nefab LogPak is a flexible pallet collar system that has all of the advantages of a modern returnable packaging system, with relative low investment costs. It is a standardized way of transporting goods, and the collars are collapsible, reliable and strong. They can be customized with four or six galvanized hinges, and the lids can be made of 6, 8 or 12 mm plywood with either two battens or galvanized steel corners. Customization such as colored collars and prints are possible.

## Benefits

- Saves storage space due to collapsibility
- Standard method of packaging
- Completely customizable
- Low investment cost
- Long life (10+ years) under normal conditions
- Reduces transport damages
- Minimal environmental impact
