

# EXPAK STOCK SIZES

A lightweight, collapsible, and expendable packaging system. The combination of plywood and steel offers superior strength, weight, and volume utilization. ExPak offers cost-efficient protection for industrial applications with heavy, sensitive, and high-value products.

## FAST, RELIABLE, AND COST-EFFECTIVE

### Three reasons to choose the Nefab ExPak:

**1)** The Nefab ExPak is designed for small orders. Order what you need, when you need it, and save valuable storage space. Readily available, with **short lead times** to accommodate the unpredictable demands of most businesses.

**2)** The unique ExPak design is strong enough for almost any industrial application. The Stock Box program offers a **wide range of sizes** on-demand to meet your changing needs.

**3)** **Save money** with Nefab's wide-range of pre-fabricated boxes. Nefab Stock Boxes are produced in bulk quantities, so you get the best price possible. Our Stock Boxes are delivered flat, resulting in significant savings on freight and storage.

### Nefab ExPak advantages

- Delivered collapsed so units are easy to stack and store
- Galvanized steel profiles offer strength and enhanced protection
- Tab and slot integrated locking systems facilitate easy closing and opening of the box
- Lightweight, collapsible design reduces transportation cost
- Nail-less assembly of pre-fab boxes means fewer workplace safety issues.

*All Nefab products meet international regulations (ISPM #15), which ensures our wood packaging is safe for export.*

#### ExPak S

- Consists of a lid, two sides, two ends, and a base
- Suitable for large products

#### ExPak P

- Consists of a lid, a foldable sleeve, and a base
- Suitable for small and medium-sized products

#### ExPak H

- Consists of two L-shaped sleeves, a lid, and a base
- Suitable for medium and large-sized products
