

# ASSEMBLY INSTRUCTIONS

## NEFAB EXPAK P

Nefab ExPak P is assembled in minutes, it is delivered in three separate components (lid, foldable frame, and bottom).

Step 1: To start the assembly, simply open the foldable frame.

Step 2: Place the bottom tabs into the bottom tab slots.

Step 3: Place the lid over the top with the tabs in the lid slots. Bend the tabs with a screwdriver. The top tabs should be bent down towards the floor. The bottom tabs should be bent upwards toward the sky.

To open and close the box, place the end of a screwdriver in the hole in the tab and bend it 180 degrees.
