## Adhesive Tapes

*Nefab offers a wide range of adhesive tapes, which are the most used commonly packing system for closing. Simplicity, functionality and low cost are some of the most important features.*

Adhesive tapes are available in polypropylene, pvc, and paper materials. There are two main types of adhesives - natural (solvent) and synthetic (hot melt, acrylic). Adhesivity for solvent ranges from 100 g/cm and for hot melt and acrylic from 300 g/cm.

Adhesive tapes are used for:

- Closing boxes
- Stabilising packaging products
- Strapping
- Product support
- Printing and identification

Advantages of Adhesive tape:

- Low application cost
- Very flexible in design
- Easy to use
- Well adapted to all kinds of products

Nefab offers adhesive tape in a selection of widths, lengths and properties. They can be printed in up to three colours and we can provide specific products such as double-sided tapes, security tapes, and gummed tapes where necessary.

Tapes can be customised with printings.

Tools are available for easier application.
