

A close-up photograph of a metal collar system, specifically the REPAK L2 model, attached to a wooden pallet. The metal is silver and has several oval-shaped holes along its length. The wood is light-colored and shows the grain. The collar is secured with screws. The background is a blurred view of the pallet's structure.

REPAK L2

*A flexible pallet collar system.
Cost-effective solution.
Safe & ergonomic handling.*

IMPROVING BUSINESS IN YOUR WORLD

Nefab RePak is an ideal solution for returnable flows. Due to its lightweight plywood material and collapsibility ratio, it ensures ease of handling and assembly. In addition to the plywood, the container is equipped with steel components to reinforce its longevity and strength for multiple uses.

SPECIFICATIONS NEFAB REPAK TYPE L2

The Nefab RePak L2 offers lightweight design with exceptional performance in terms of volume utilization and collapsibility ratio. The user-friendly container is easy to assemble and collapse, due to the integrated spring locking system, which eliminates strapping. When collapsed, the container parts are well secured. The angle profiles in the lid and base, the ingenious locking system and the durable birch material are a combination resulting in a highly rigid and proven design.

RePak L2 shows an outstanding durability and offers great flexibility in design. The container can be customized according to specifications, and optional features, such as a drop-down gate and surface treatment are also available.

TECHNICAL SPECIFICATION

Steel specification	Galvanized, euronorm DX51D+Z200
Sheet material thickness: lid/base/frame	6 mm/8 mm/6 mm
Steel material thickness	Hinges 0.8 mm; profiles 1.5 mm
Pallet	Four-way wooden pallet with plastic blocks
Other	Hinged Gates
Recommended min. size, external	600x400x485 mm
Recommended max. size, external	1200x1000x1085 mm
Max. net weight of goods	Depending on pallet construction
Max stacking strength	3000 kg

With our **MULTI-MATERIAL ENGINEERING** capabilities, we can develop sustainable packaging solutions for any product.

Our **TOTAL COST APPROACH** ensures that packaging is optimized, reducing total cost in your supply chain.

In addition, our **GLOBAL SUPPLY & SERVICE** capabilities enable us to provide both local support and global coordination, wherever you are.

Nefab, founded in 1949, is a world leading global provider of sustainable packaging solutions and logistics optimization services. Nefab serves global industrial companies in industries such as for example Telecom/ Datacom, Energy, Automotive, Healthcare equipment and Aerospace. Nefab has 2700 employees in Europe, North and South America and Asia. Owners of the Group are the Nordgren/Pihl family and FAM AB.
